

LINEAR SHOWER DRAIN CARE

RECOMMENDED CLEANERS

Soliel Sinks stainless steel linear shower drains are designed to minimize cleaning and maintenance.

High-pressure flushing is the most effective method of cleaning, and, if performed regularly, will keep the drains clean in most situations. Only use a mild soap and a soft cloth for cleaning.

DO NOT use any abrasive cleaners or scrub pads. DO NOT allow household cleaning agents, such as bleach, sit on your drain cover for a long period of time. In cases where a stainless steel cleaner is necessary, rinse the drains with plenty of water after use.
